Individual Project

Colevy Collins

Project Progress – Overview

- Project Burndown: 0 out of 4 (0%) tasks complete. 0 out of 11 (0%) tests complete

Project Features

- Data input feature - This feature would allow the user to input a task in date, start to end time, task name, and task tag.
- Search Database for key work - This feature would allow the user to see all activities that match the keywords given to the program.
- Activities report - This will produce a report on all activities done between the two given dates.
- Priority report - This will produce a report on all activities done with how much time spent on each task, from highest time consumed to lowest.
